Hey Ty,

It was in one of the documents that you sent. It mentions he was monitored after his OIS so I assumed that he was the shooter. I will look for the bates number.

Hey Eric,

How did you obtain the name of the shooting officer - did I give it to you? I thought I just learned it myself, so I wondered if you got it from monitoring the LAPD sources rather than from the litigation.

Ty

Thanks for getting back to me. I understand its crazy what is going on right now. I think I am just getting nervous because of the deadline that the court set for hearing a motion to amend. Lets touch bases next week when hopefully things have calmed down. Stay safe.
